

Orbit™

A Contemporary AV Trolley Designed for Modern Workspaces

*Redefining Elegance and Efficiency
for Flexible & Collaborative Meetings.*

The Orbit™ AV Trolley makes AV integration faster and more efficient. With its contemporary A-frame design, integrated power, and discreet cable management throughout, the Orbit™ delivers a sleek, stylish solution for modern and flexible meeting spaces.

Designed to support screens up to 65", the Orbit trolley effortlessly enhances presentations by encouraging collaboration with quick and simple connectivity and deployment.

Image shows Orbit Trolley specifically designed for the Neat Board 50.

Standardised Screen Mount.

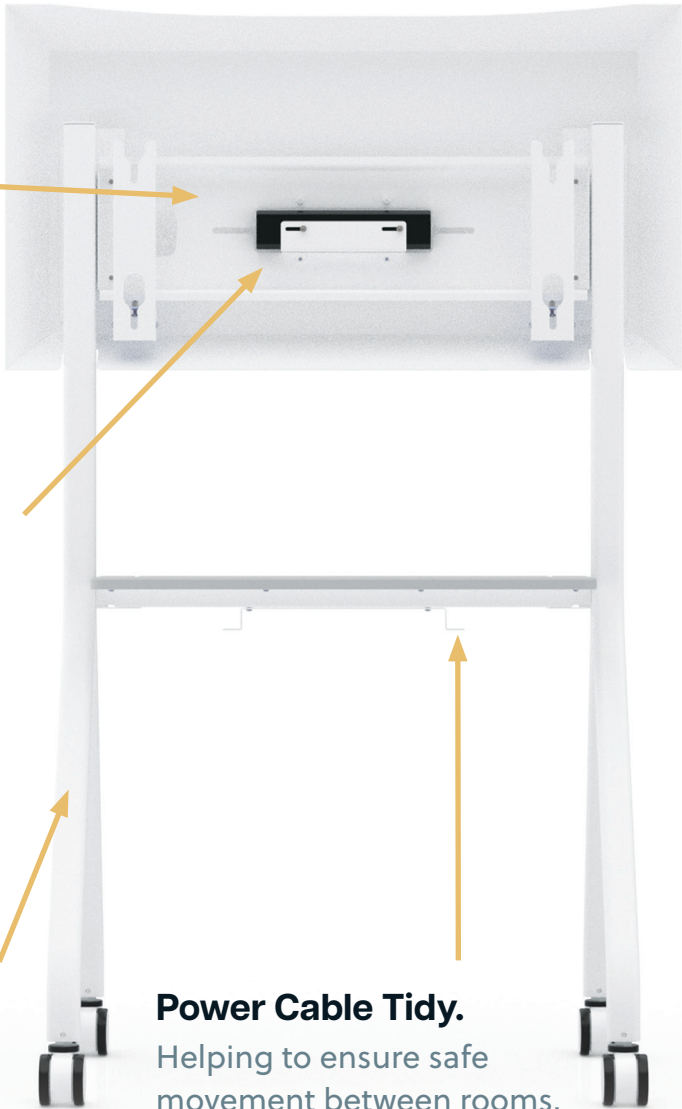

Compatible with a wide range of screens (up to 65").

Built-In Connectivity.

4-way power socket provides simple and efficient connectivity.

Cable Management.

Cables can be discreetly routed from the floor all the way to the screen.

Power Cable Tidy.

Helping to ensure safe movement between rooms.

Protective Rear Cover.

Additional security whilst keeping cables and small devices tucked away.

Practical Wooden Shelf.

Hidden cable management, space for small devices with an integrated pen tray.

Contemporary A-Frame Legs.

Modern, stylish design that guarantees stability in all environments

Practical, Hinged Wooden Shelf with Underside Power Cable Tidy.

The Orbit's smooth, sleek shelf adds a convenient workspace for meetings. With its integrated pen tray for small accessories and hinged cable tidy, this AV trolley is optimised for quick collaboration.

Designed with functionality at its core, the Orbit includes an underside power-cable tidy as well as ample room for on-shelf cabling, power sockets, connectivity points, and other small devices.

Discreet and Tidy Cable Management Route From the Floor to the Screen.

The cable management system features a carefully considered design that keeps installations neat and professional by concealing unsightly cabling.

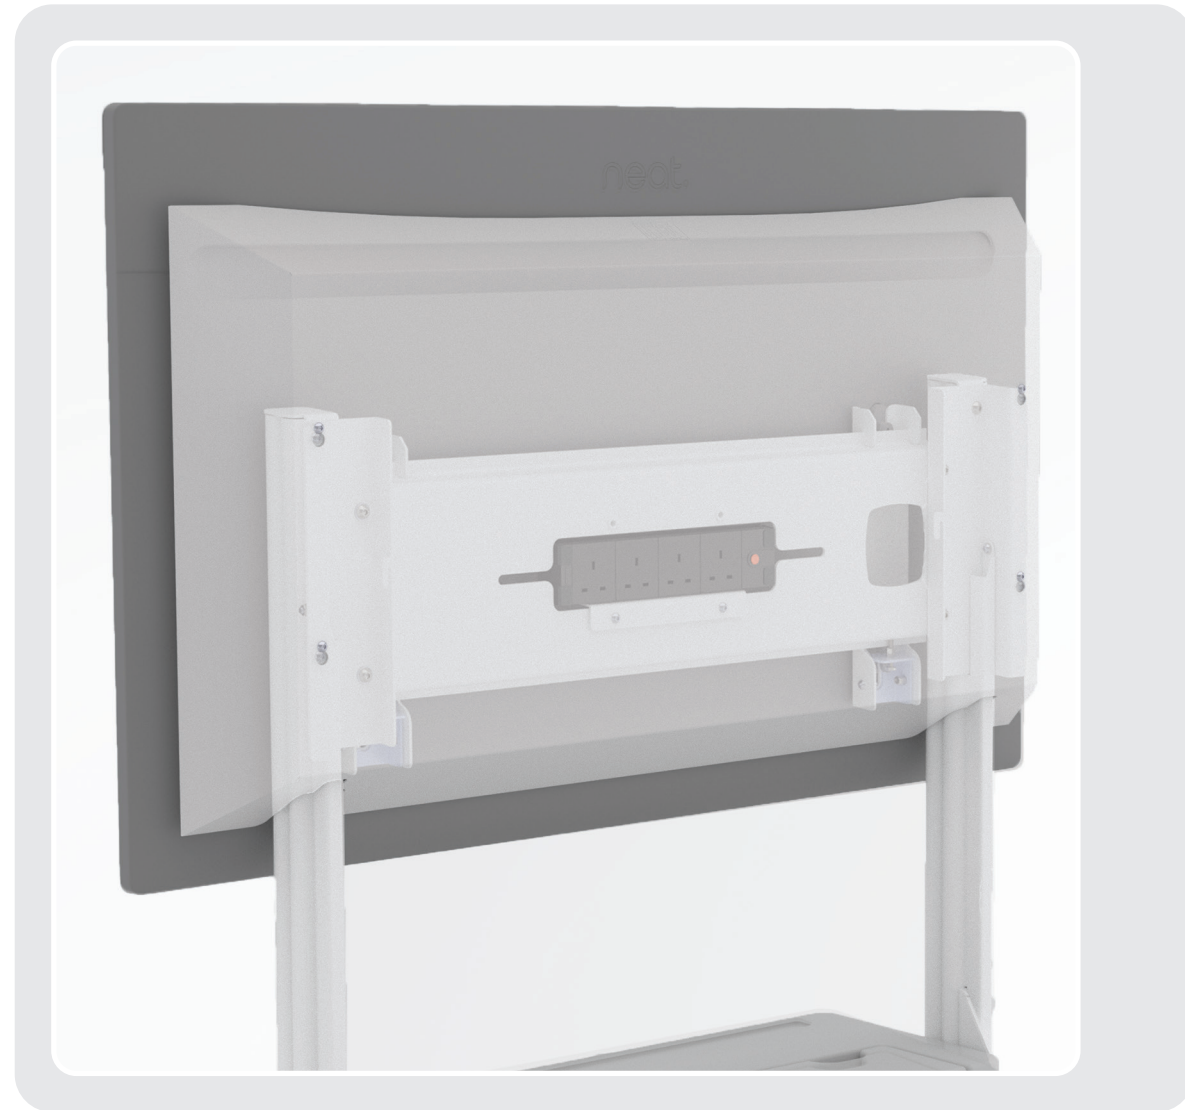

Cables are guided through hooks on the trolley legs and into discreet, secure cable-tidy arms, while plugs connect conveniently to the power socket at the rear of the screen mount.

A Neat Rear Cover To Protect Your Screen, Secure Cabling & House Small Devices.

A protective rear cover neatly conceals and safeguards the back of the screen, along with small devices, cabling, and power connections. A dedicated version is available for the Neat Board, while a universal option accommodates most screen specifications.

Designed for convenience, it fixes easily into position and helps prevent unwanted access.

Standardised Versions with Wide Ranging Customisation Opportunities.

The Orbit AV Trolley is available in UNICOL's signature Sinterflex White or Sinterflex Black with a light grey or black wood shelf respectively.

UNICOL prides themselves on their flexibility and customisation options, allowing you to make each mount your own. Bespoke RAL colours, alternative wooden shelf finishes or the addition of your logo can be accommodated. Enquire for more information.

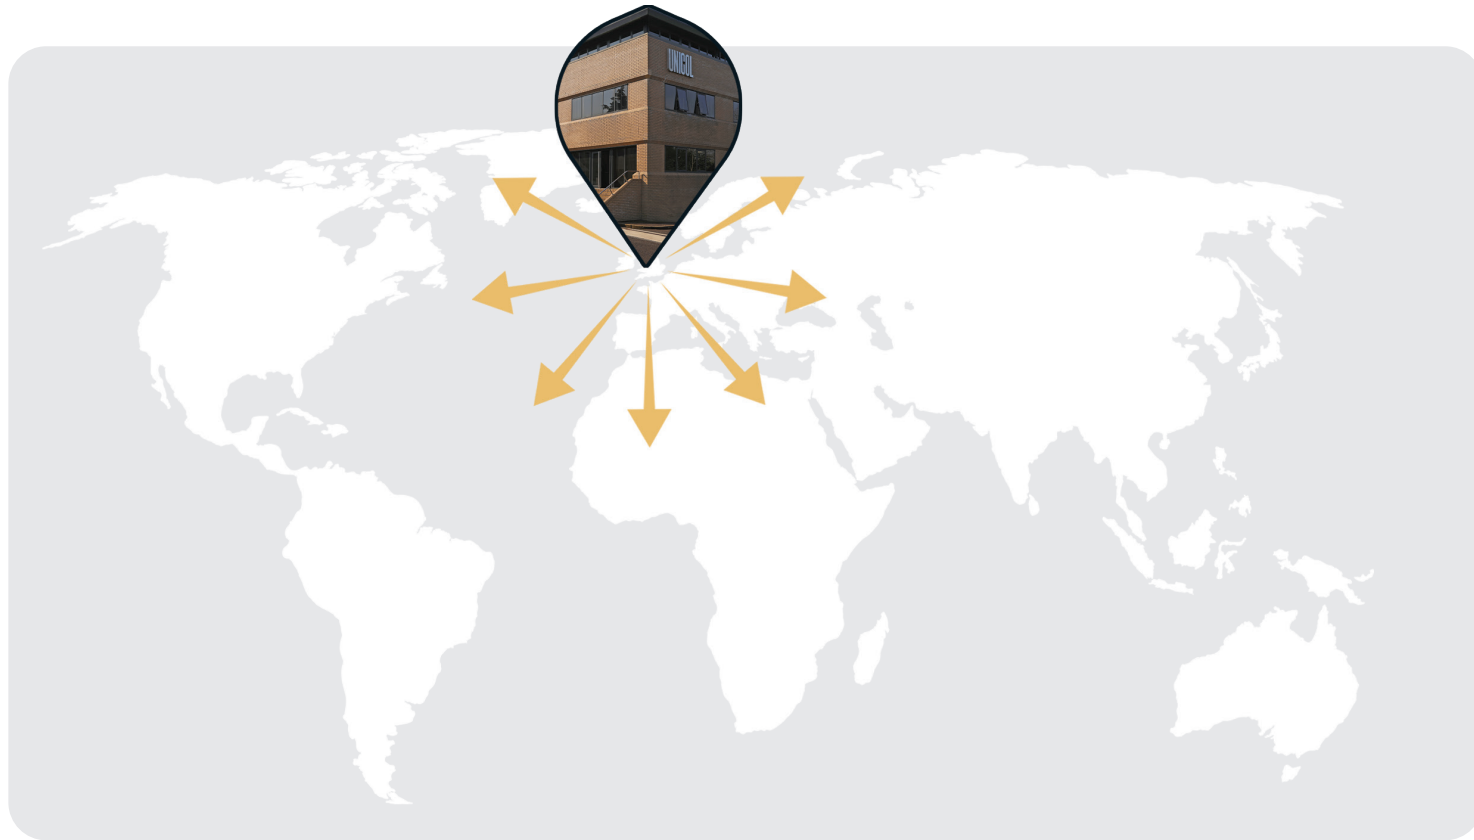

Looking to match your brand guidelines? We can custom finish your product in any RAL colour.

Custom wood finishes are available including Oak, Beech, Walnut and Grey wood options.

Designed, Manufactured & Dispatched in the UK, Distributed Worldwide.

Our purpose-built 45,000sqft Oxford factory enables us to be entrusted with large projects, yet with the flexibility to daily despatch routine orders and one-off custom items. Here, all the design, testing and manufacturing processes work seamlessly together to maintain UNICOL's principle of innovating robust, versatile and dependable mounting solutions.

Over 60 Years of Innovation and our Continued Values That Stand the Test of Time.

At UNICOL, we endeavour to continue designing and manufacturing, innovative, high quality AV mount solutions that satisfy the demands of the true AV professional.
