Edition 56

Mounting Solutions

Supporting You

Welcome to the 2019 UNICOL Catalogue

Our comprehensive range of AV equipment mounts is available ex stock and offers unrivalled flexibility. Order either as standard assemblies or in component form to suit your own requirements. We also offer an efficient service in the manufacture of custom made items, from 'one-off' specials to large scale projects for corporate users. – Call us today or visit our website!

As we continue through 2019 with great uncertainty over the shape of the UK's trading relationship with Europe, as well as potential new global markets, we feel it's more important than ever that we forge ahead with exciting and innovative new products. These additions complement our extensive range of 'industry standard' mounting solutions used by many AV and IT industry professionals. Our new 2019 brochure perfectly illustrates our ongoing commitment to that ethos with new products to satisfy the converging pathways of AV and IT.

If you could invest a little time getting to really know our new brochure it would be appreciated; I've yet to meet a customer who when guided through our brochure at some point doesn't say "I didn't realise that you made those" so that hidden gem may be just a page turn away. I would also like to take the opportunity to share a particularly positive story albeit a story which isn't new to UNICOL by any means.

You probably didn't know that over 98% of UNICOL's products and packaging are recyclable, how significant is that with our ever increasing awareness of how we use and re-use the valuable resources of our amazing planet? Equally impressive is the fact that this isn't a new phenomenon, it's always been that way, never been any different and for a business entering its 56th year the cumulative benefit can only be hugely significant.

The UNICOL paper sacks made from 800gsm natural (so no bleaching in the manufacturing process) kraft paper and sewn at one end are almost impossible to tear or rip but are still fully recyclable or at worst will naturally decompose. The cardboard packaging used is made up from nearly 80% previously used material and at the end of its life is once again 100% recyclable.

Moving on to the UNICOL products themselves: All major components are made of steel or aluminium, all 100% recyclable. The software cutting programme we use maximises the optimal number of profiles cut from each sheet, minimising waste. Therefore all offcut wastage, post manufacturing, is once again recycled.

We are proud to say that from start to finish UNICOL produces minimal waste, even incoming plastics and packaging are sorted and baled for collection by recycling companies, for us this isn't something new it's always been part of our DNA.

David Jopling
Managing Director

UNICOL products have been designed to meet BSI installation specification standard BS8590. All goods are sold subject to the Companies terms & conditions of sale, a copy of which is available upon request or can be downloaded from our website www.unicol.com. VAT will be charged at the prevailing rate at time of invoice. Mechanical items have a 10 year design & manufacturing warranty. Electrical parts are covered by a 12 month return to base warranty. UNICOL products are the subject of continuous development and we reserve the right to improve designs or change specifications without prior notice.

Products and prices listed in this catalogue are correct at time of going to press (Issue 56 - 2019). © Peter Ligertwood 2019.

UNICOL Special Projects Department

Highlighting our in-house design & manufacturing capabilities, resolving many varied and often complex projects.

CORPORATE

Corporate Offices – Full Service Cassette Mount

In many global organisations 'down time' of AV & IT services can be critical and fault fixing in a hurry can be expensive. An investment bank called us in to provide an easy swap out mount for their displays and more importantly peripherals such as players etc. UNICOL standard wall mounts allow screens to be easily dismantled from a wall so the challenge was to provide a rack that could be pre-loaded then positioned into a vertical drawer, which in turn could be lifted and locked behind the screen. The image shows a loaded cassette in the down position ready for a hot swap.

TRAVEL

Oslo Central Station – 60m² 100 screen video wall

Because of brake dust contamination, IP65 rated GDS displays were used. The difficulty with this was the weight of these screens, which negated the use of standard pop-out style mounts. The video-wall layout was 20 x 5 but there was no wall to fix the mounts to, so a custom tower to house 5 displays was designed. To enable displays to be swapped out the middle row was fixed but the upper and lower tiers could be wound out for front loading access. A suspended metal frame was made onto which the 20 towers were fixed. Norwegian Rail ordered other 5 x 5 walls as part of their upgrade.

EDUCATION

Teaching Aid Lectern – Surrey University

When Surrey University were looking to upgrade their AV furniture with collaborative tables and control desks, they wanted custom features and fast order turnaround. The result was a branded central desk facility to control AV lecture content, screen or projector video sources, audio and lighting levels and more. Cabinets have 19" removeable 6U racks and the desk, with control housing and fully adjustable screen mount, powers up and down by remote or manual switch for standing or seated operation. Such was the success of this roll-out it is now a standard product.

RETAIL

Westfield Stratford – Floor to Ceiling Totems

Indulge Beauty wanted to make a splash in their new flagship store and proposed two 1 x 3 video-walls, using 55" Samsung displays in each window. The displays had to be in a housing, adhering to their brand colours and with access to the screens. A fully enclosed kiosk would have looked too bulky so a slim housing was designed and UNICOL chrome columns were used as the supporting structure and trim for the housing. Chrome reflects so the impact on the eye is less than with solid colours. The Totem was fixed to the floor and ceiling with cabling running through the columns.

VS1000 Stands, Trolleys & Components

"The Work Horse of the AV industry"

With a wide choice of interchangeable parts, easy assembly and sheer robustness VS1000 trolleys are the favoured choice of trade show, education, broadcast and AV users everywhere.

Available as static, wheeled base or back to back versions, with a wide choice of height options. Accessories include metal or glass shelves, locking cabinets and other options.

Height to centre of screen 1500mm

Rhobus RH100
Trolley with 55" screen

Rhobus RH100
stand with
60inch screen
& VCM

With its clean lines and superior finish options the Rhobus range of stands and trolleys answers all the needs of the corporate user – from boardroom to prestige exhibitor.

Choose from the elegant single screen version through to multi-screen units to support the very latest and best in corporate communications. Ample capacity is provided within the central mast for cabling, codecs and other systems, all accessible through a locking door. Built in power socket comes as standard.

Camera mounts available in two versions:

- * VCM standard mount (see Page 13) fits above or below screen
- * Vertical blade type (see below) allows camera to be positioned between screens.

An abundance of practical features

Mast housing dims for cabling / codecs – 440(w) x 470(h) x 80(d)

Easy swap from twin wheel castors to static feet to suit your needs

Camera mount options allow choice of camera & screen configurations

Simple to configure for single, twin or triple screens – mount design allows close edge to edge contact for multi-screens

Drop down locking door allows easy access & provides neat appearance

Floor to wall versions also available with lockable front panel for installation access

NEST-STAR® Nesting Trolleys

AV Teaching Aid on Wheels

A complete large format audio visual teaching assistant on wheels that can be deployed quickly and neatly stowed when not in use.

This robust trolley is designed for large format displays and securely houses your favourite PCs and controllers, whilst allowing fast deployment of cabling. The standard trolley comes with a plain mast. However, we understand that choice of equipment is important and will customise the rear or front of the mast section with a 300 x 300 x 100mm cable/keypad pocket and standard double gang wall plate & cable assembly at an additional cost. (Please call us for a quote). Handles are provided for ease of movement as standard.

These trolleys can quickly turn an empty space into an effective student e-learning environment as and when required. Whilst Sinterflex Black is the standard colour, other bright & bold finishes are available.

- * Robust modular construction
- * Easy to assemble and install
- * Quick and easy deployment
- * Customisation available
- * Secure storage for players / PCs
- * Standard black with colour options
- * Fast turnaround delivery 5 - 7 days

Footprint shown
from underneath

Shown in various colours with holes cut for specific customer requirements.

* Please Note: Standard trolley comes in Sinterflex Black with plain mast. The rear / front of the mast can be customised with a cable/keypad pocket and double gang wall plate & cable assembly.

Order Code	Price Ex VAT
NST1 For up to 70" screens (Trolley only - no electronics)	1310.50
NST2 For up to 90" screens (Trolley only - no electronics)	1377.30

When ordering please state make & model of screen, custom option requirement and colour choice. There will be an additional charge of 18% for non-standard colours.

Axia Titan

Designed for large format or multi-screen applications, these trolleys incorporate heavier mast sections and increased base footprint to accommodate large screen sizes and heavier loads. Axia Titan trolleys come in 4 versions:

- * **Fixed Height**
- * **Manual Easy Lift**
- * **Bolt Down versions**
- * **PowaLift with Remote**

Safety Note: Safety must always be the first priority when handling large / heavy screens, which should be installed by qualified personnel using appropriate lifting equipment. Manoeuvre and position trolleys only on flat and even surfaces. Large screens may need removing when manoeuvring trolley under standard door heights.

Manual Easy Lift

Smooth 'ratchet action' for easy lifting. Practical, reliable and immune from show venue power outages!

Manual Easy Lift Trolley For Screens up to 98"

PowaLift™

Electronic control & PowaLift technology combine in these versatile units.

- * Safe, smooth operation
- * Well proven technology
- * Quality, long life components
- * For screens 33 to 70 inch
- * Controllable by remote fob, cord switch or direct from your laptop – all supplied with unit

Operated by wireless remote or manual switch, screens can be commanded to rise or descend smoothly through 700mm, stopping safely at any point.

These units serve many requirements, particularly in the field of education, enabling young children or wheel chair users to interact with touch screens. 'Touch of a button' height control also makes it easy to move from one location to another through doorways.

Screen mount, hand held remote with manual switch and 4-way power socket supplied as standard.

Universal VertiSlide Serviceable Cassette Mount

The VertiSlide Serviceable Cassette Mount is a wall fixed screen mount with a vertically sliding & detachable slotted rack for mounting AV equipment.

There are two models for different screen sizes. When installed the equipment is hidden behind the screen but in the event of a swap out the rack can be unlocked, slid down and detached if necessary to carry out the maintenance. VertiSlide is a universal unit designed for most screens so that the rack is positioned towards the bottom of the screen.

An under desk version is also available – see Page 37

- * For screens up to 57" (max 35Kg)
- * Fits all of the following VESA sizes:
200x200 / 300x300 / 400x400 / 600x400

Order Code		£ Ex Vat
UTM	with 680mm wall plate	55.00
UTM1	with 500mm wall plate	55.00

(Caution: Do check that your screen has cabling connections which allow the use of a slim style wall mount and do not protrude excessively from the rear).

Versus Mount Range

As screens become lighter it is only natural to have a mounting system that shows off the virtues of Direct and Edge Lit LED technology.

This range of screen mounts is available in wall, stand or ceiling versions, tilting & non-tilting. The ceiling version is supplied with an adapter to fit a standard column. The trolley version fits directly to a standard PS2 twin column adapter.

The wall version has ample room for services and folds down into a small package for easy stocking. All versions fit the most popular VESA fixing centres.

Ceiling Mount Version

Order Code		£ Ex Vat
VZWC1	0 to 10 degrees tilt	93.70

Outdoor Housings in Landscape or Portrait

Outdoor Housings for up to 86" screens

UNICOL pioneered the development of outdoor housings and has unrivalled experience in this specialised field. Our well proven range of housings go from small screen monitors used in harsh environments right up to the latest 80inch large format screens.

All are constructed in 1050 grade aluminium and utilise high quality temperature control components within. Screen viewing panels in impact resistant polycarbonate are incorporated as standard. Toughened or laminated glass is also available as an option.

For the Technical – housings all feature the following:

— In Landscape or Portrait —

- * Tailor made for perfect screen fit every time
- * Wide range available – 32" to 86" screens
- * IP53 rated with vandal resistant screen
- * Corrosion free for long life in all weathers
- * Light weight aluminium construction
- * Wall, ceiling or back-to-back mountable
- * Thermostatic internal heating & cooling
- * User replaceable cartridge air filtration

*Prices quoted are ex-works
as all housings are despatched
by dedicated courier
or collected*

ScreenRail Universal Multi-Display System

ScreenRail™

- * Ceiling Suspended
- * Wall mounted

ScreenRail Multi-Display System

A highly adaptable rail system for mounting screens in-line, in any number. Ideal for Digital Menus, Videowalls & Telepresence, etc. Can be wall mounted and ceiling suspended. ScreenRail system comprises a choice of standard rail modules and a range of screen arms to cover all applications. Back to Back versions also available.

When selecting parts consideration has to be given to screen width & VESA fixing size. The examples of menu boards and videowalls below use **VWA** adjustable arms. We have given these specific codes for ease of ordering but we urge you to check before ordering by providing us with the make & model of your screen. Ceiling suspension examples use 1.5m columns.

Menu Boards

Wall mounted & ceiling suspended.

These kits consist of all parts necessary for fixing screens in line on a wall or ceiling suspending on 1.5 columns.

Other lengths of rail are available to order: 450(w), 800(w), 1000(w), 1200(w), 1700(w), 1800(w), 2100(w) – Call for details

Fixed Tilt Stand-off Brackets

Use these optional brackets to provide tilted display whenever required. 10 or 20 degree tilt versions listed.

Order Code	£ Ex Vat
SR10 10° tilt (pair)	36.20
SR20 20° tilt (pair)	38.40

Free-standing video wall system

Ideal for situations when quick, easy and accurate assembly is required such as hire and retail, where regular change is inevitable.

This robust modular structure is made of individual mast units that are joined with cross members enabling a 4-high display unit to have infinite width, (3-high display units are also available). Cable management runs are catered for and there is adequate space for players or PCs.

Each display fixes to the VWP1 standard 'Push to close - Push to open' video wall mount capable of VESA 200 x 200 to 800 x 400, for displays up to 45kg, (See Page 30). The mount allows for tool-less adjustment in all planes by means of knurled wheels for in-out and up-down movement. Lateral action is achieved by sliding the display smoothly on wheels located in the mount arms.

- * **Robust modular construction**
- * **Easy to assemble and install**
- * **Wide choice of screen options**
- * **Space for players and PCs**
- * **Discreet cable management**
- * **'Push to open' - 'Push to close' mounts**
- * **Tool-less screen adjustment**

– Call us for details

Shop Window Solutions

Ideal for retail and other applications to enable screens to be tracked in / out & from side to side, thus opening exciting possibilities for window displays, dynamic presentations, servicing needs or just access for screen / store front cleaning.

AV Roller Trak system consists of track lengths of standardised design which carry smooth running ball bearing trolley units. Standard Unicol column lengths & screen mounts complete the installation.

- * **Smooth, easy glide operation**
- * **Single or multiple screens**
- * **Wide choice of track lengths**
- * **Swivel or Rotamount options**

AV Roller Trak™

Typical roller track in window display use

To order – call our technical support team for full system details, options available and advice on any project or installation being considered.

Spider Gantries

These ceiling mounted units are available for a wide range of screen sizes incorporating our Pozimount universal tilting screen mounts. The spider style and single column gantry versions have swivel capability and all have cable entry ports for neat installation.

By their very nature all spider style and in-line gantries incorporate parts which are factory made to suit specific requirements but all versions are available on a short turn round basis.

Call our technical support team for advice on any project or installation being considered.

Spider – triple screen unit

* We also manufacture gantries for projectors
–Call us for details

Spider – five screen 'pentagon' unit

CP5 Ceiling Mount

Typically 33-57" screens

Spider five screen gantry - illustration shows typical gantry main frame. Add heavy duty column / CP5 ceiling mount (special to these gantries) & screen mounts (pages 20/21).

Order Code		£ Ex Vat
SG3	3 screen spider gantry - max weight per screen 50Kg	462.90
SG4	4 screen spider gantry - max weight per screen 50Kg	617.20
SG5	5 screen spider gantry - max weight per screen 40Kg	770.00
CP5	Large gantry ceiling mount for use with above (Page22)	108.40

In-line Gantries

Side View

Single sided In-line gantry

Side View

Back-to-back In-line gantry

Typically 33-57" screens

Order Code	Bar Length (mm)	£ Ex Vat	Order Code	£ Ex Vat
DIG1050	100-500	75.60	MSS1 Bolt on socket	17.00
DIG50100	500-1000	75.60	MSP1 Bolt on peg	14.00
DIG100150	1000-1500	75.60		
DIG150120	1500-2000	75.60		

In-line gantries require MSS1 sockets or MSP1 pegs (above), Single sided require PS1s, Back-to-Back PS5s (Page22). All require Screen Mounts (Pages 20/21).

Product codes & prices listed are intended as a guide as most gantry installations are 'project driven' with the make/model & number of screens as well as the location already chosen. Call our technical team who have wide experience in advising the necessary mount component 'package' to best meet the needs of your installation.

Floor to Ceiling and Floor to Wall Systems

- * Single sided and back to back screen versions
- * Cable management within column uprights
- * Floor to ceiling and floor to wall options

Below are three standard methods of floor to ceiling / wall installation. Select any of the trade kits listed (for nominal ceiling heights of 4m). If the kits do not meet your needs order in component form as required. To enable adjusting heights of screens at installation long column lengths can be ordered separately with standard adapters. If services are from the floor use ESF or AVF floor plates (Page 22) for cable management.

Single column

Floor to ceiling single column kits:

Order Code		£ Ex Vat
FCUS3	up to 57" - single screen	320.00
FCUD3	up to 57" - back to back	428.30

Projector Suspension Units

Standard colour Sinterflex black – also available in white

UNICOL PSU™

Unicol Projector Suspension Units

Our PSU (Projector Suspension Unit) range covers all makes of projectors. Each mount is specifically designed for the individual projector models listed, supporting the projector either inverted or in a cradle according to manufacturer's recommendations.

Copyright Hilary Lloyd, Photo courtesy of Sadie Coles HQ, London

Direct Fixing

PSU shown

The preferred method of projector mounting. All our PSU mounts are designed to align accurately with the projector mounting holes and take account of cooling or lamp access needs.

All PSU mounts are now available as micro adjustable versions having 2 axis, level & tilt. (See centre panel).

Order Code		£ Ex Vat
PSU	Standard direct fixing version	138.00
PSC	Cradle direct fixing version	172.00
VSU	Vertical down aspect version	165.00
PPSU	Portrait version	271.20
PSM	Micro-adjustable version	206.80

Cradle Units

PSC shown

An alternative method of projector mounting, either to meet a projector's optical needs or to give protection to projectors when used in 'location to location' or hire circumstances.

Micro Adjustment®

This 2 axis micro adjustment factory fitted option is available for most PSU units and provides a range of precision adjustment in level and tilt.

Registered Design

PSU Specials

We have a wealth of expertise in the design and manufacture of all kinds of projector suspension units to meet client's special requirements. These include mounts for downward or upward projection, multi-projector units, 3D rigs and one-off projects.
