UNICOL®

Mounting Solutions

Supporting You

Welcome to the 2023 UNICOL Catalogue

Our comprehensive range of AV equipment mounts is available ex stock and offers unrivalled flexibility. Order either as standard assemblies or in component form to suit your own requirements. We also offer an efficient service in the manufacture of custom made items, from 'one-off' specials to large scale projects for corporate users. – Call us today or visit our website!

With a degree of pride, this year's catalogue celebrates our 60th year of manufacture and supply into the AV industry. From small beginnings – literally £30 capital, working out of a wooden shed in a village outside Oxford, we have grown as the AV industry has expanded. In the early days the only equipment in common use were slide and film projectors and strange things called Epidiascopes! Fortunes changed for us with the introduction of television for schools and with it the supply of trolley's for TV and VCR combinations across the whole of the UK.

Today, our range of products is vastly more diverse and ever-growing. Along with our catalogue range of products we manufacture a constant churn of custom made items. Integrators entrust us with many projects which are often time critical as well as needing to be aesthetically designed and moreover, safe. We welcome daily enquiries for 'one-off' non-standard items, right up to larger scale projects, for which our facilities at Oxford are well geared from prototyping to the final approval of designs.

None of this would happen without the dedication of our hard working and experienced team, some of whom have been with us for over 25 years. Here there is a real mix of people, in our factory, in product design and in our technical sales team, with young blood being trained in the processes of manufacturing and customer support. Our expertise and willingness to produce the best is demonstrated on a daily basis with our many customers.

*The **UNICOL** Team*

UNICOL Engineering, Green Road, Oxford, OX3 8EU, England

Large Screen Ceiling Suspension Trade Packs

An addition to our popular trade pack range, the choice now extended to support up to 110" screens.

P24

Microphone Ceiling Suspension

Microphones with 100 x 100 VESA fixings can be suspended from a Ceiling Plate (CP1), column of suitable length and GK4 with 100x100 GAP.

We also make close to ceiling mounts with the same VESA fixings, used where there is no ceiling void.

P40

PZX10 Large Screen Universal Mount

P21

for screens up to 110" and VESA fixings of 1500 x 600.
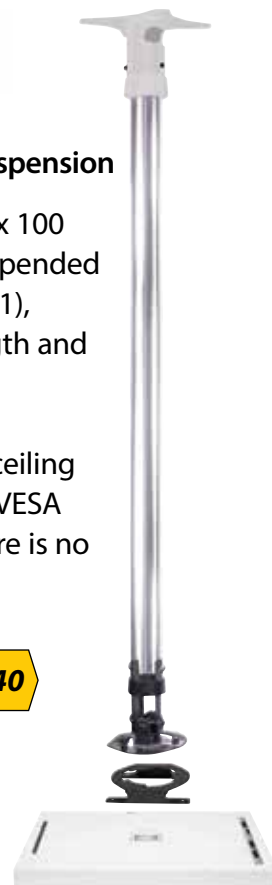

Comfort Monitor Trolley

Based on our VS1000 range this trolley provides easy set up for use at the front of any stage.

Microsoft Front Row short throw Projector and Videobar mount

A floor stand for short throw projectors with 2 x 1U racks and arm for Videobar or camera.

P38

P6

How To Order

Order online, via email or call our technical sales team direct.

We are more than pleased to help regarding best choice of items to order or advise on any project being considered.

NEST-STAR®
Nesting Trolleys

A complete teaching assistant on wheels that can be deployed quickly and neatly stowed when not in use.

This robust trolley supports your displays and securely houses your favourite PCs and controllers. The standard trolley comes with a plain mast. However, we understand that choice of equipment is important and will customise the rear or front of the mast section with a 300 x 300 x 100mm cable/keyboard pocket and standard double gang wall plate & cable assembly at an additional cost. (Please call us for a quote). Handles are provided for ease of movement as standard.

These trolleys can quickly turn an empty space into an effective student e-learning environment. Whilst Sinterflex Black is the standard colour, other bright & bold finishes are available.

✱ **Robust modular construction**

✱ **Easy to assemble and install**

✱ **Quick and easy deployment**

✱ **Customisation available**

✱ **Secure storage for players / PCs**

✱ **Standard black with colour options**

✱ **Fast turnaround delivery 5 - 7 days**

Height to centre of screen 1500mm

NST1 80kg MAX

NST2 150kg MAX

Typically 33-90" screens

Shown in various custom colours with holes cut for specific customer requirements.

When ordering please state make & model of screen, custom option requirement and colour choice. For small dedicated batches we charge +18% plus the cost to purchase the powder.

Axia® Titan

Designed for large format or multi-screen applications, these trolleys incorporate heavier mast sections and increased base footprint to accommodate large screen sizes and heavier loads. Axia Titan trolleys come in 4 versions:

✱ **Fixed Height**

✱ **Manual Easy Lift**

✱ **Bolt Down versions**

✱ **PowaLift with Remote**

Safety Note: Safety must always be the first priority when handling large / heavy screens, which should be installed by qualified personnel using appropriate lifting equipment. Manoeuvre and position trolleys only on flat and even surfaces. Large screens may need removing when manoeuvring trolley under standard door heights.

Prices quoted are ex-works as the Easy Lift is despatched by dedicated courier.

PowaLift™

Electronic control & PowaLift technology combine in these versatile units.

✲ **Safe, smooth operation**

✲ **Well proven technology**

✲ **Quality, long life components**

✲ **For screens 33 to 110 inch**

✲ **Controllable by remote fob or manual switch – all supplied with unit**

Operated by wireless remote or manual switch, screens can be commanded to rise or descend smoothly through 700mm, stopping safely at any point.

These units serve many requirements, particularly in the field of education, enabling young children or wheel chair users to interact with touch screens. 'Touch of a button' height control also makes it easy to move from one location to another through doorways.

Screen mount, hand held remote with manual switch and 4-way power socket supplied as standard.

Video Conference Camera Mounts

Video Conference Camera Mounts

We have been designing and manufacturing video conference camera mounts for many makes and models for many years. These units allow video conference cameras or any small item to be fixed to our stands & trolley ranges and ceiling suspension systems where a screen is used.

There are a number of models that slot into our screen mount 150 x 150mm fixing arrangements. Other models hook onto the rails of our universal mount range providing options for all installations.

The models listed here have a 360(w) x 260(d)mm standard platform and we have a huge range of custom sizes specific to camera make & model.

Can be mounted above or below the screen.

Outdoor Housings for up to 86" screens

UNICOL pioneered the development of outdoor housings and has unrivalled experience in this specialised field. Our well proven range of housings go from small screen monitors used in harsh environments right up to the latest 86 inch large format screens.

All are constructed in 1050 grade aluminium and utilise high quality temperature control components within. Screen viewing panels in impact resistant polycarbonate are incorporated as standard. Toughened or laminated glass is also available as an option.

For the Technical – housings all feature the following:

━ In Landscape or Portrait ━

- ✳ **Tailor made for perfect screen fit every time**
- ✳ **Wide range available – 32" to 86" screens**
- ✳ **IP53 rated with vandal resistant screen**
- ✳ **Corrosion free for long life in all weathers**

- ✳ **Light weight aluminium construction**
- ✳ **Wall, ceiling or back-to-back mountable**
- ✳ **Thermostatic internal heating & cooling**
- ✳ **User replaceable cartridge air filtration**

The UNICOL Difference

Our outdoor housings and covers look so good and work so well because each one is tailor made to perfectly fit the screen of your choice. Our advanced Oxford manufacturing facility and screen database enables us to do this, with all Outdoor Housings made in durable corrosion proofed aluminium for long term good looks.

All offered with a reliable & prompt delivery service – usually within 5 to 7 days. *A perfect result in rapid time!*

Obelisk Digital Signage System

Our well proven and most adaptable range of display enclosures. These are designed around our standard UNICOL chrome, or optional stainless steel columns, to provide the widest choice of installation needs. All are available in free standing, floor-fixed and floor to ceiling versions. Custom options available including floor to ceiling multi-screen and landscape configurations.

* Single or back-to-back displays
* Easy to assemble and install
* Wide choice of screen options
* Laminated glass option

* Polycarbonate screen cover option
* Analytic Camera mount option
* POS Shelf options available
* Space for players and PCs

* Branding options available
* Colours in Sinterflex Black
* Other colour finishes available
* Rapid turnaround on orders

Edgeline Digital Signage System

An alternative design choice with hollow box section support uprights, which provide additional cable management and enhanced design appeal.

Favoured by many corporate and retail specifiers. The Edgeline range is noted for its distinctive appearance which fits well with current design trends. Choose from a variety of available configurations; Free Standing versions with either open or enclosed lower sections. Bolt down versions are also available where permanently fixed signage is more appropriate. Double sided screen versions are also available.

ADAPTA-WALL®

Patent Pending   Registered Design

The installer friendly Pop Out mount loaded with innovative features.

✱ With standard 'Push to close - Push to open' action. Also available with remote latching system where closure with no screen contact in the case of ultra thin displays is required.

✱ For screens up to 45Kg with fixings; VESA 200 x 200 to 800 x 400mm.

✱ Full screen adjustment in all planes.

45kg MAX

✱ Accurate horizontal / vertical centre line marks on all back plates for easy set up.

✱ For direct wall fixing or use with our video wall structure components for ceiling, floor to ceiling or floor to wall applications.

✱ Optional 'pull cord' security feature prevents unauthorised 'Pop out' operation in public areas or any situation required.

Compact Version

*70mm – **Closed***
*220mm – **Open***

Order Code	£ Ex Vat
VWP0	**318.50**

The compact size of this version is for screens up to 40" and covers VESA sizes 100 to 300mm. Comes complete with fine adjustment features for accurate screen positioning.

Wall Plate dims: 410w x 500h
Fits VESA: 100 x 100mm   200 x 200mm   300 x 200mm

410 / 300 — VWP0

Standard Version

*103mm – **Closed***
*350mm – **Open***

Order Code	£ Ex Vat
VWP1	**347.80**

All Adapta-Wall mounts come with a wide range of VESA fixing sizes, complete with fine adjustment features for accurate screen positioning.

Wall Plate dims: 800w x 500h
Fits VESA: 300 x 300mm   400 x 400mm   600 x 400mm

For screens with VESA 800 x 400mm fixing points a stretched version, VWP3 is available.

800 / 500 — VWP1 – VWPHD

Heavy Duty Version

*103mm – **Closed***
*350mm – **Open***

Free Standing Video Walls & Roller Trak

V-WALL

Free-Standing Video Wall System

Ideal for situations when quick, easy and accurate assembly is required such as hire and retail, where regular change is inevitable.

This robust modular structure is made of individual mast units that are joined with cross members enabling a 4-high display unit to have infinite width (3-high display units are also available). Cable management runs are catered for and there is adequate space for players or PCs.

Each display fixes to the VWP1 standard 'Push to close - Push to open' video wall mount capable of VESA 200 x 200 to 800 x 400, for displays up to 45kg, (see Page 32). The mount allows for tool-less adjustment in all planes by means of knurled wheels for in-out and up-down movement. Lateral action is achieved by sliding the display smoothly on wheels located in the mount arms.

ScreenRail™

✳ **Ceiling Suspended**
✳ **Wall mounted**

## ScreenRail Multi-Display System

A highly adaptable rail system for mounting screens in-line, in any number. Ideal for Digital Menus, Videowalls & Telepresence, etc. Can be wall mounted and ceiling suspended. ScreenRail system comprises a choice of standard rail modules and a range of screen arms to cover all applications. Back to Back versions also available.

When selecting parts consideration has to be given to screen width & VESA fixing size. The examples of menu boards and videowalls below use **VWA** adjustable arms. We have given these specific codes for ease of ordering but we urge you to check before ordering by providing us with the make & model of your screen. Ceiling suspension examples use 1.5m columns.

Menu Boards

Wall mounted & ceiling suspended.

These kits consist of all parts necessary for fixing screens in line on a wall or ceiling suspending on 1.5 columns.

Spider Gantries

These ceiling mounted units are available for a wide range of screen sizes incorporating our Pozimount universal tilting screen mounts. The spider style and single column gantry versions have swivel capability and all have cable entry ports for neat installation.

By their very nature all spider style and in-line gantries incorporate parts which are factory made to suit specific requirements but all versions are available on a short turn round basis.

Call our technical support team for advice on any project or installation being considered.

Spider – triple screen unit

✱ *We also manufacture gantries for projectors – Call us for details*

Order Code		£ Ex Vat
TBM1	7" to 11" screens, 100 x 100 VESA	**120.40**
TBM2	12" to 15" screens, 100 x 100 VESA	**123.50**

Please provide make & model of Tablet when ordering. PoE adapters can also be accommodated.

Versus Mount Range

As screens become lighter it is only natural to have a mounting system that shows off the virtues of Direct and Edge Lit LED technology.

This range of screen mounts is available in wall, stand or ceiling versions, tilting & non-tilting. The ceiling version is supplied with an adapter to fit a standard column. The trolley version fits directly to a standard PS2 twin column adapter.

The wall version has ample room for services and folds down into a small package for easy stocking. All versions fit the most popular VESA fixing centres.

Universal Sliding Serviceable Concealed Cassette Mounts

The VertiSlide Serviceable Cassette Mount range consists of wall fixed screen mounts with vertical or horizontal sliding & detachable slotted racks for mounting AV equipment.

There are three models for different screen sizes. The equipment is hidden behind the screen. Depending on the model, in the event of a swap out the rack can be unlocked, slid down or across and detached if necessary. VertiSlide is a universal unit designed for most screens with the rack positioned towards the bottom of the screen.

An under desk version is also available and incorporates a hinged slotted removeable rack for mounting AV equipment such as players etc. When installed the equipment is hidden under the desk but in the event of a swap out the rack can be unlocked, hinged down and detached if necessary to carry out the maintenance. Has easy close counterbalance mechanism.

Custom sizes available.
*State screen make & model and AV equipment being fitted when ordering.*

Gyrolock® ~ **With Universal Mounts**

These universal mounts offer a wide range of adjustment not only to cover widely differing projector screw fixing centres but also allow clearance for contour variations often found in projector design. A universal screw pack to cover most projectors is included.
